## 1 INTRODUCTION

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see [tax.fi > About us > Information and material on taxation > IT developers > e-Filing guidance > Electronic filing of information returns General description](#).

## 2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

For information on how to make a request for online transfer, on the procedures involved and on the e-services available for the transfer, see the instructions titled [Nonresident recipients of pension benefits — instructions for direct transfers of withholding data, 2019](#).

Guidance and Data File Specifications are posted each year at [tax.fi > IT\\_developers > Data\\_format\\_specifications > Direct transfers and other notices](#)

For more information on how filers must identify themselves electronically, on the requirements on Katso ID and Katso Role, and on the information flow's check routine for authorizations, click [here](#).

Based on the Business ID of the party making the request, the answer file sent back will include the corresponding sets of data. Based on the Business ID of a pensions institution, the system will print the name of the institution on any letters and correspondence sent to pension recipients.

If the IT service provider needs to divide the files that have been requested by one and the same Business ID into different entities, the reserve space in positions 597–650 may be used for this purpose.

### 2.1 HOW TO REPORT ADDRESS/NAME CHANGES OF A PENSION INSTITUTION

If a pension institution or insurance company has changed its business name or address, the Tax Administration must be notified either by post, by e-mail or by fax.

Postal address:

Finnish Tax Administration  
Tietohallinto / ORSI-ylläpito  
P.O. Box 265  
FI-40101 JYVÄSKYLÄ

e-mail: [ORSI-ilmoitukset\(at\)vero.fi](mailto:ORSI-ilmoitukset(at)vero.fi)

Fax: 029 512 6100

### 3 PERIOD OF VALIDITY

This specification sets out the requirements of file formatting that come into force on 27 September 2018 and continue to be in force until a new version of this specification is released.

The last date for requests is 9 November 2018.

### 4 COMBINED INFORMATION FLOWS

You may not send us any other data flows in the same file with this data flow.

## 8 MESSAGES

This information flow has no messages.

## 9 TYPE OF PAYMENT CODE OF THE PENSION PAYMENT

B1 = Employment pension paid by public bodies (not from business activity)

B2 = Other payments based on social-security legislation (such as employment pension, farm closure pension or accident indemnity pension)

B3 = Other than employment pension, paid by Kela or by Finnish State Treasury.

B4 = Contract-based pension deemed as earned income (including voluntary retirement pension contracts signed either by the beneficiary or by the employer)

B5 = Pensions paid by public bodies, derived from business activity

B7 = Other pension type than referred to above in B1-B5 and B8 below. (e.g. motor accident insurance contract, other risk insurance contract)

B8 = Contract-based pension deemed as capital income (including voluntary retirement pension contracts signed by the beneficiary)

B9 = Pensions based on voluntary retirement pension insurance contracts, raised by 20 percent (enter the original amount without the 20-percent increase)

P4 = Payments derived from long-term savings contracts, deemed as earned income

P5 = Payments derived from long-term savings contracts, deemed as capital income

P6 = Pensions based on long-term savings contracts, raised by 20 percent (enter the original amount without the 20-percent increase)

Each Type of Payment must be reported separately i.e. separate request filings must be created for each. If the Type of Payment is the same but there are differences between the types of pensions being paid, you must add them up and report the total, if the same facts are true for all of them.

## **10 PENSION INCOME FOR 2019**

The payer's estimate for the taxable total of the pension or other comparable benefits that are going to be paid in 2018. Enter the amount as an integer, in cents, with no separator characters, and pad with leading zeroes. This amount must include any pension that is paid in the form of fringe benefits, valued on the date of reporting.

## **11 WITHHOLDING PERCENTAGE RATE FOR PENSIONS**

Enter integers and halves. Example: For the withholding rate of 44.5%, write 445.

The data element will be left blank if the calculation has failed (594=1/2/4/5).

## **12 CODE FOR SUCCESSFUL/NON-SUCCESSFUL REQUEST**

0 = withholding rate successfully calculated

1 = identification of request failed

2 = request successfully identified but calculation failed

4 = request concerns resident taxpayer but in the Tax Administration's records the taxpayer is nonresident

5 = computation of tax card prevented by local tax office

## **13 COUNTRY CODE OF THE COUNTRY OF TAX RESIDENCE**

This data element has a value that indicates the actual country of residence as recorded by the Tax Administration. This country code is different from the country code reported by the payer of pensions. It indicates the country relating to the tax withholding calculation result.
