1) Fixed assets without revaluation.
2) The comparison value is the taxable value of the tax year, the end date of which is used in the calculation of net worth.
3) The higher of the values is used in the calculation of net worth. The comparison is done separately for each real estate unit.

The information entered on this form will be read by computer, by optical character recognition. The computer system does not process anything you may have written outside the spaces. Only fill in forms printed out from tax.fi, do not use photocopies. Photocopies may have inferior quality, making optical character recognition difficult.
