1 GENERAL DESCRIPTION

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see <u>General description for</u> <u>electronic filing of information returns (pdf)</u> (tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns).

2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

§ 66 a of the act on income tax (Tuloverolaki 1535/1992) concerns non-listed limited liability companies' share issues to their employees. The provision entered into force on 1 January 2021. The act on assessment procedure (Laki verotusmenettelystä 1558/1995) was simultaneously amended to include a provision on the reporting obligation. The acts' provisions are applicable on the employee issues for which the date when the company agreed upon the issue is a later date than the date when the amended act went into effect. After an issue under the definition of § 66a of the act on income tax is carried out, the company must submit an annual information return.

Under § 66 a of the act on income tax, when an employee buys their employer's corporate stocks during an issue to employees and the employer is a non-listed limited liability company, no taxable earned income is generated if the price is no less than equal to the share's mathematical value calculated on the basis of the latest financial statements adopted before the period of subscription, in accordance with § 9 of the act on valuation of assets in taxation (Laki varojen arvostamisesta verotuksessa 1142/2005).

For tax control purposes, a company that has carried out an issue according to § 66 a of the act on income tax must provide the Tax Administration with required information about the

- issue of its corporate stock
- employees who subscribed for shares
- number of shares subscribed for
- start date of subscription period
- date of share subscription

- subscription price per share
- mathematical value applied to the share issue
- and report whether any subscriber's ownership interest and number of votes exceeds the share stipulated in § 66 a, subsection 1 of the act on income tax.

You must provide information on all the persons who participated in the share issue although the provisions of § 66 a of the act on income tax would not apply on some among them.

For more information, see the Tax Administration guidance on the taxation of employment-based share issues (<u>Työsuhteeseen perustuvan osakeannin verotus</u>), which is available in Finnish and Swedish)(*tax.fi* > *Detailed guidance* > *Guidance* > *Taxation of employee offerings*)

If the issuing company has no Finnish Business ID, the company must submit an application for a Finnish Business ID. This is necessary for the submittal of the annual information return. To submit the application, visit the BIS website on vtj.fi.

To check the method of identification required by the data flow, the role required and where in the data flow authorisation is checked, go to <u>Methods of sign-in</u>, roles and rights to represent organisations (*Ilmoitin.fi* > *Instructions and templates* > *Methods of sign-in*, roles, rights to represent organizations).

3 MAKING CORRECTIONS

For year-specific instructions for making corrections, go to <u>Making corrections</u> to <u>annual information returns</u> (tax.fi > About us > IT developers > Data format specifications > Annual information returns & Instructions > Making corrections to annual information returns).

4 PERIOD OF VALIDITY

The file formatting and checks according to this specification come into force on 26 March 2024 and continue to be in force until a new version of the specification is released.

For information about deadlines for filing, see the year-specific schedule on IT developers (tax.fi > About us > IT developers). The schedule is available in Finnish and Swedish.

7 CHECK PROCESSES

New/	ID	Description of the calculation rule or check
Chan		
ged		
-	083, 380	#1750; Enter either the personal ID (083) of the share subscriber or the date of birth (380) of the foreign subscriber.
	380, 085	#1751; If the foreign subscriber's date of birth (380) has been entered, the subscriber's name (085) must also be given.
	376, 377	#1752; If the mathematical value of the share (376) is 1 = "value is greater than 0", the mathematical value given in data element (377) must be greater than 0 in the case of a share issue to employees.
	376, 377	#1753; If the mathematical value of the share (376) is 2 = "value is 0", the mathematical value given in data element (377) must be 0 in the case of a share issue to employees.
	378, 379	#1754; If the share subscription price (378) is 1 = "value is greater than 0", the subscription price given in data element (379) must be greater than 0 in the case of a share issue to employees.
	378,379	#1755; If the share subscription price (378) is 2 = "value is 0", the subscription price given in data element (379) must be 0 in the case of a share issue to employees.
	366, 058	#1756; The year of the date when decision on the issue to employees was made (366) cannot be later than the Year when the shares were subscribed for (058).
	375	#1757; Number of outstanding company shares (375) when the subscription period started must be greater than zero

8 MESSAGES

New/	Identifier	Description of message
Chan		
ged		
	379, 377	#1758; If the share subscription price (379) is lower than the mathematical value of

New/ Chan ged	Identifier	Description of message
		the share (377), the difference between the subscription price and the mathematical value is taxable earned income. Report the taxable amount to the Incomes Register.
	382, 383, 384, 385	#1759; If after the issue, or before it, the employee who buys stock has an ownership interest (382, 383) or a number of votes (384, 385) above 10% of total stock or 10% of all votes, the employee issue is treated as a benefit subject to taxes. Report the taxable part to the Incomes Register. The maximum ownership interest and the maximum share of votes are both 10%. If either one is higher, the issue to employees gives rise to a taxable benefit.
	366	#1760; In order that § 66 a of the act on income tax would apply, the date when a decision on the share issue to employees was made (366) must be 1 January 2021 or later.
	381, 058	#1761; Date of share subscription (381) has to be a date during the Year when the shares were subscribed for (058).
	381, 367	#1762; Date of subscription (381) cannot be earlier than the start date of subscription period (367).
	377	#1763; Your input says that the mathematical tax value of one corporate share (377) is zero. Are you sure you want to report this value?
	379	#1764; Your input says that the price of one corporate share (379) is zero. Are you sure you want to report this value?
	366, 381	#1765; Date when decision on the issue to employees was made (366) cannot be later than the Date of subscription (381).
	365	#1766; Your input says that the employee share issue is not available to the majority of employees (365). Are you sure the input is correct? It is required under § 66a of the act on income tax that the issue is available to the majority. Employee issues resulting to taxable benefits must be reported to the Incomes Register.
	382,383, 384,385	#1819; The subscriber's and/or family members' direct or indirect ownership (382,383) or portion of total votes (384,385) before the issue or after the issue: at least one of the values must be greater than zero. Did you forget to indicate the ownership interest and/or the portion of total votes in the company?

9 INSTRUCTIONS AND EXAMPLES

The shares must be reported for the year when they were subscribed for. The shares must be reported by share issue: compile the shares subscribed in the same issue during the same year and by every participating employee.

Give the price in Euro (€). If the currency used was other than Euro, convert the price into Euro using the ECB rate valid on the date of payment.

9.1 LIST OF COUNTRY CODES

For country codes according to the ISO 3166 standard, see the <u>List of country codes</u>.

9.2 Quantity of shares subscribed (386)

Indicate how many shares each wage earner subscribed in total when participating in the share issue for company employees.

9.3 Mathematical value and subscription price of one share

The lowest reportable mathematical value of one share (377) and the lowest reportable share subscription price (379) is 0.01. If the value is greater than zero but below 0.01 enter 0.00 as the price in Euro, and enter 1 = value is greater than 0 in data element 376 and data element 378.
