Version history

Date	Version	Description
27 Sept 2022	1.0	First version for tax year 2022

1 GENERAL DESCRIPTION

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see [General description for electronic filing of information returns \(pdf\)](#) (*tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns*).

2 DESCRIPTION OF THE DATA FLOW AND SUBMITTAL OF FILES

This flow is exclusively for reporting the profit shares, which partnerships that hold equity funds receive. These limited partnerships are entities that only pursue investment activities with their holdings of private equity.

More detailed guidance for completing the form is available on the Tax Administration's website at [Forms](#) (*vero.fi > About us > Contact us > Forms*).

Information about the submittal of the return is available (in Finnish and Swedish) in the [Tax Administration decision on e-filing](#) (*vero.fi > Syventävät vero-ohjeet > Päätökset > Verohallinnon päätös sähköisestä asiointista ja varmentamisesta*).

To check the method of identification required by this data flow, the required role and the place in the flow where authorisations are checked, go to [Methods of sign-in, roles and rights to represent organisations](#) (*ilmoitin.fi > Instructions and templates > Methods of sign-in, Roles, rights to represent organizations > Income Tax Return > Name*).

3 MAKING CORRECTIONS

To correct an electronically submitted income tax return, you must re-send the main form and all the attachments that contain corrected data. In other words, you must send the main form again, even if it does not contain anything that needs to be corrected.

4 PERIOD OF VALIDITY

The file formatting and checks according to this specification come into force on 27 September 2022 and continue to be in force until a new version of the specification is released.

5 COMBINED DATA FLOWS

See other data flows that can be sent in the same file as this data flow: [Allowed combinations of forms for electronic income tax returns \(xlsx\)](#) (*tax.fi > About us > IT developers > Data format specifications > Income tax returns Allowed combinations of forms for electronic income tax returns (xlsx)*)
