1 INTRODUCTION

This guidance explains the structure of the required inbound file and the check procedures that follow. For more information, see [General description for electronic filing of information returns \(pdf\)](#) (*tax.fi > About us > IT developers > Data format specifications > General description for electronic filing of information returns*).

2 DESCRIPTION OF THE INFORMATION FLOW AND SUBMITTAL OF FILES

Find the guidance for completing Form 6C (in Finnish and Swedish) on the Tax Administration website [Forms](#) (*vero.fi > About us > Contact us > Forms*).

To check the method of identification required by the data flow, the role required and where in the data flow the authorisation is checked, go to the Ilmoitin.fi webpage [Methods of sign-in, Roles, rights to represent organizations](#) (*ilmoitin.fi > Instructions and templates > Methods of sign-in, Roles, rights to represent organizations > Income Tax Return > Name*).

3 MAKING CORRECTIONS

If you have submitted an income tax return electronically and notice some mistakes in it later, to remedy the errors, you must re-send Form 6C – the main form – with all the enclosures that contain corrections. In other words, you must send us the main form again although it does not have anything to correct.

4 PERIOD OF VALIDITY

This specification sets out the requirements of file formatting that will become available on 6 February 2024 in Ilmoitin.fi in the live environment. They will then continue to be in force until a new version of this specification is released.

5 COMBINED INFORMATION FLOWS

See the other information flows that can be sent in the same computer file as you are sending Form 6C:

[Allowed combinations of forms for electronic income tax returns \(xlsx\)](#)

10 CALCULATION RULES

Economic results from the conducted business – profits or losses – of an association or a foundation are calculated as follows:

$$752 - 753 + 754 + 755 - 756 + 757 - 758 + 759 + 760 - 761$$

If the result is positive, enter it in position 500.

If the result is negative, enter it in position 505.

Economic results – profits or losses – from taxable operation with real estate and from the selling of timber (personal source of income, taxed under the Act on income tax (TVL)) of an association or a foundation are calculated as follows:

$$762 - 763 + 764 + 765 - 766 + 767 - 768 + 769 + 770 - 771$$

If the result is positive, enter it in position 501.

If the result is negative, enter it in position 506.

Economic results from an operation not subject to taxation of an association or a foundation are calculated as follows:

$$740 - 741 + 742 + 743 - 744 + 745 - 746 + 747 + 748 - 749$$

If the result is positive, enter it in position 750.

If the result is negative, enter it in position 751.
