**CORPORATE TAXPAYERS' TAX MATTERS IN 2022:** 

# TAX MATTERS INTEGRATED INTO AUTOMATED EINANCIAL ADMINISTRATION

Corporate taxpayers' tax matters in 2022:

Tax matters on
the small-scale enterprise's
platform service

# THE SMALL ENTREPRENEUR CAN TAKE CARE OF MOST TAX MATTERS WITHOUT HAVING TO CONTACT THE TAX ADMINISTRATION

- The entrepreneur uses a mobile phone to access a cloud service provided by Company Oy, and data and receipts are automatically transferred to the service from a cashpoint terminal.
- The cloud service compiles and submits tax returns and other information returns to the Tax Administration automatically.
- The entrepreneur can focus on their business activities and monitor their financial matters via a mobile service.
- Where necessary, the MyTax service notifies the entrepreneur. The entrepreneur can then
  log in to check the matter, submit the required additional information or answer the
  question made.
- The entrepreneur can use MyTax for both personal and corporate tax matters.
- If the entrepreneur has paid wages or other earned income, their payroll system will deliver the data to the Incomes Register.

I WANT TO		ource and/or automate financial nistration	Authorise a party of my choice to act     on my behalf in taxation matters		
	Accounting firms and providers of financial administration services
