

How to save Katso one-time password file with Internet Explorer (v.11.0→) and Edge (v. 20.0→)

If you have no printer available, this is how you can save the list of one-time Katso passwords onto your computer.

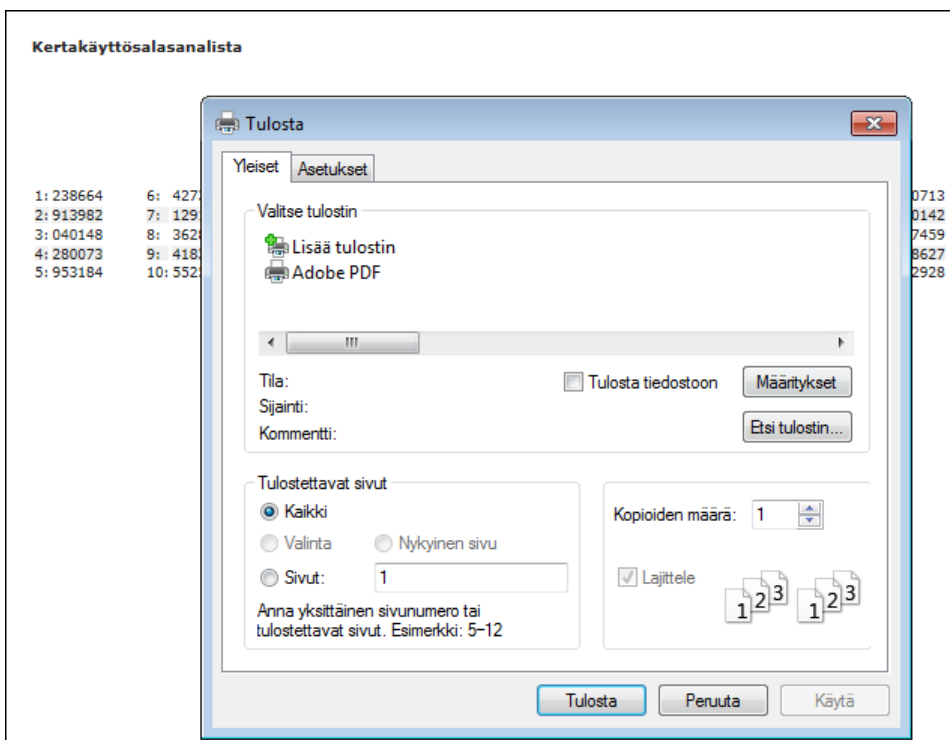

Kertakäyttösalasanalista

Valitse salasanojen lukumäärä [Tulosta](#)

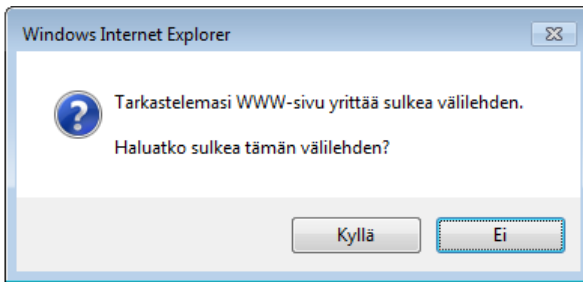

Choose the number of passwords and click Tulosta (Print).

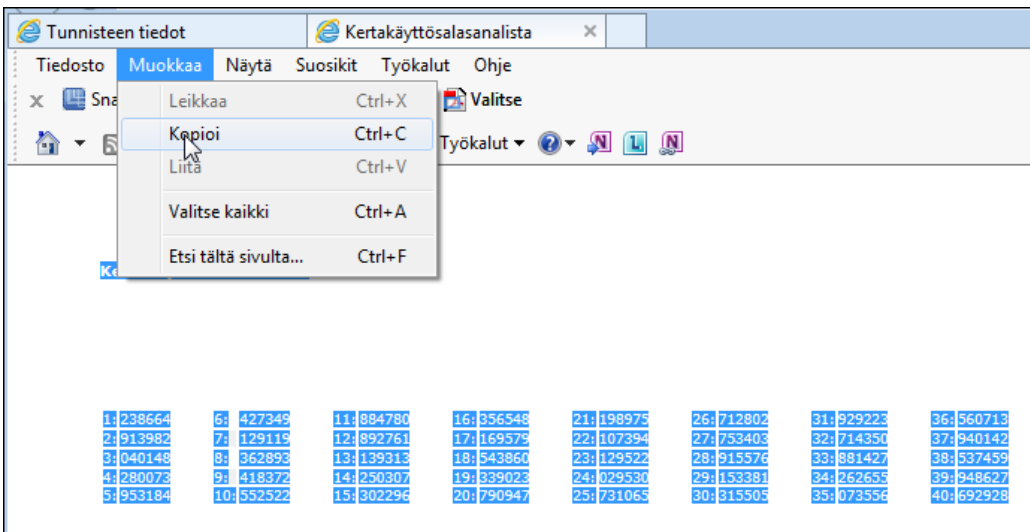

Confirm that you wish to print out and activate the list.

After that you see a list of passwords and a Print screen. In the Print screen, select Cancel.

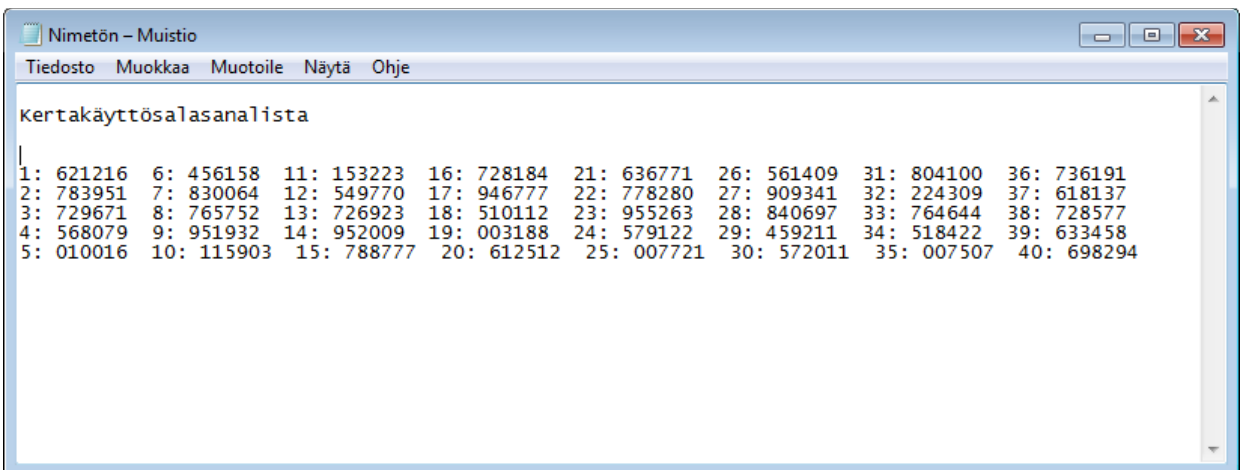

Answer No to the question on the screen to keep the list of passwords on the screen.

Paint the list of passwords. In the Edit menu, select Copy to copy the list on your clipboard.

Open Notepad or some other text processing program, such as Word. Select Edit/Paste (Ctrl+V) to insert the list on a document.

Save the document in the usual way. The preview window with the passwords is still open in the background. You can close it.

The new list of one-time passwords is now active. Log out from Katso.
