

How to save Katso one-time password file with Opera (v.37.0)

If you have no printer available, this is how you can save the list of one-time Katso passwords onto your computer.

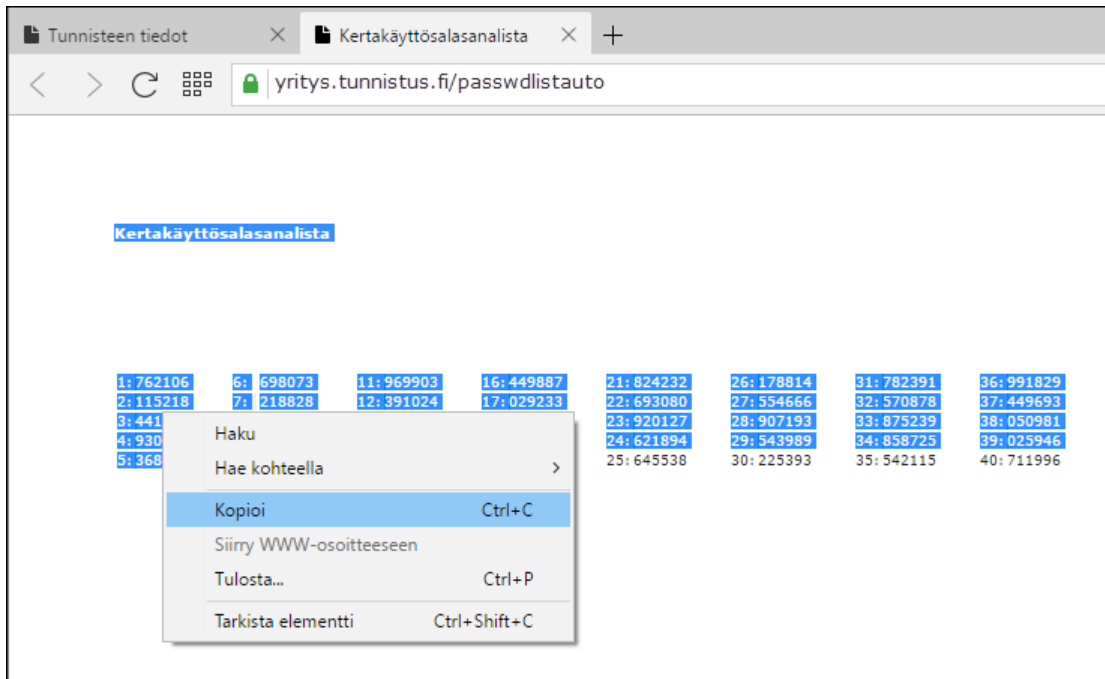

Kertakäyttösalasanalista

Valitse salasanojen lukumäärä [Tulosta](#)

Choose the number of passwords and click Print.

Haluatko tulostaa ja aktivoida uuden kertakäyttösalasanalistan? Jos valitset OK, uusi kertakäyttösalasanalista aktivoituu välittömästi, etkä voi käyttää enää vanhaa listaa. Jos valitset Peruuta, vanha lista on edelleen käytössäsi.

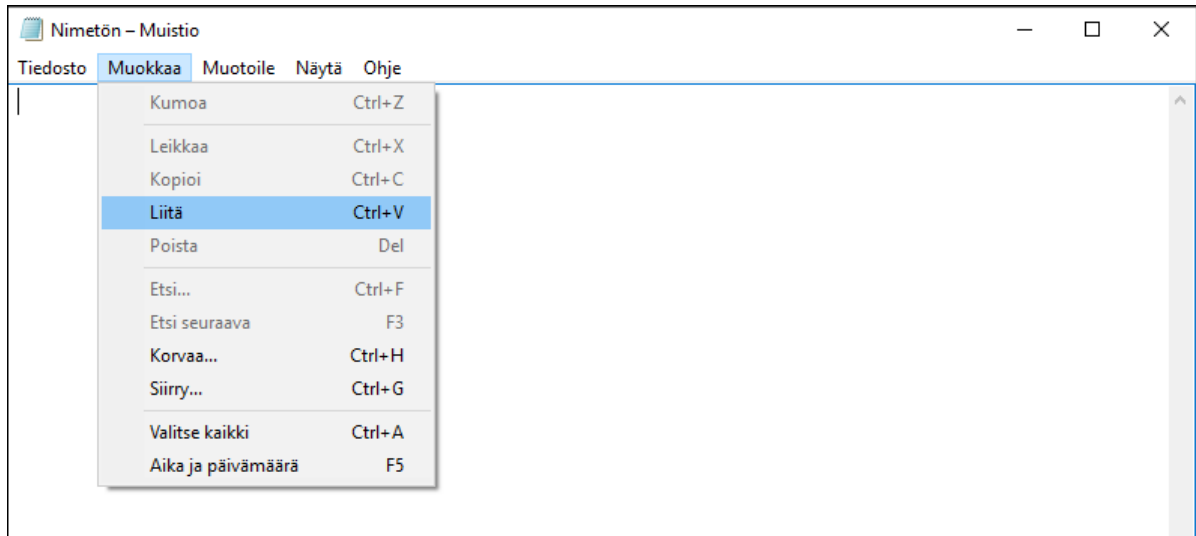

Click OK to confirm that you wish to print out and activate the list.

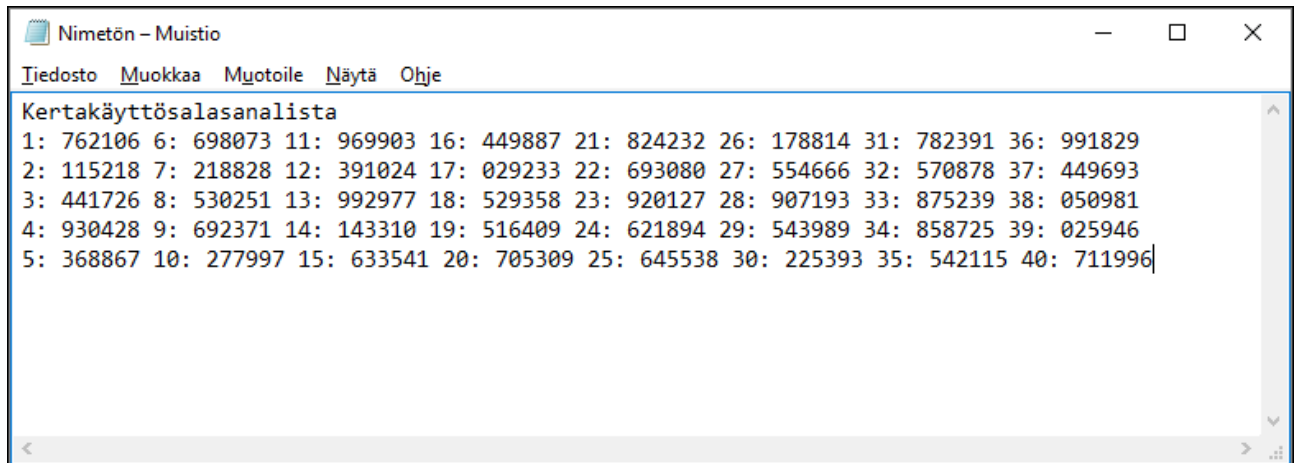

The screenshot shows a web browser window with the address bar displaying `yritys.tunnistus.fi/passwdlistauto`. The page content includes the heading **Kertakäyttösalasanalista** and a grid of 40 one-time passwords, each preceded by a number from 1 to 40. A context menu is open over the list, showing options: Haku, Hae kohteella, **Kopioi** (Ctrl+C), Siirry WWW-osoitteeseen, Tulosta... (Ctrl+P), and Tarkista elementti (Ctrl+Shift+C).

Paint the list of passwords. Paint the list of one-time passwords, right-click your mouse over the painted area and select Copy (or click Ctrl+C).

Open any text processing program. In the Edit menu, select Paste (or Ctrl+v).

Save the file under a suitable name. Close the screen with the one-time passwords and return to the Identifier details screen. The new list of one-time passwords is now active. Log out from Katso.
