CONTENTS

1   DESCRIPTION OF THE EXAMPLE

Temporary employers do not employ anyone permanently and pay no more than EUR 8,676 in wages over a period of six months (in 2020). Temporary employers do not have a valid pension insurance policy with an earnings-related pension provider. For this reason, a pension insurance company is selected in an earnings payment report, and a generic pension policy number separately defined by the company in question for use by temporary employers is specified.

In this example, monetary wages have been paid as a temporary employer. Please note that the "Temporary employer" payer type is not specified in the report if income on which pension is based is paid or the wages are paid to a YEL-insured person. Always check the instructions concerning the payment situation and enter all data matching the payment situation in question.

The data used in the example is not real. Always use correct data that matches the payment situation.
