1 Introduction

This document describes the distribution process and status changes related to rectification and restriction requests submitted by a data subject, with examples. It is intended as supporting material for system development for data users.

The examples have been implemented in the Incomes Register stakeholder testing environment. There are examples of both earnings payment and benefits payment reports. These reports are available in the e-service of the stakeholder testing environment. They can also be retrieved with a batch request using the data described in the example.
