1 Introduction.....	4
2 Examples – earnings payment reports.....	5
2.1 Report of missing data on report (status 3).....	5
2.2 Report of missing data, payer has rectified the report (status 5).....	5

1 Introduction

This document describes the distribution process and status changes related to rectification and restriction requests submitted by a data subject, with examples. It is intended as supporting material for system development for data users.

The examples have been implemented in the Incomes Register stakeholder testing environment. These reports are available in the e-service of the stakeholder testing environment. They can also be retrieved with a batch request using the data described in the example.

2 Examples – earnings payment reports

2.1 Report of missing data on report (status 3)

Report data:

Record name	Description of the data
Identifying information	
Payer identifier	7020489-3
